

CARLA CARGO

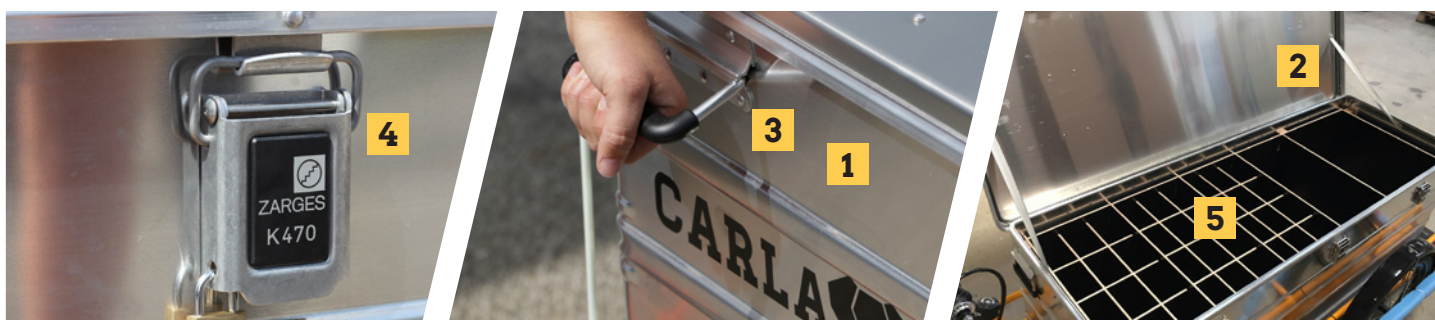

Zack Zarges

Your practical and stable solution

The proven universal crate K470 from Zarges, adapted to the loading area of CARLA, is the practical and flexible transport solution for you. Your load is protected from all environmental influences. The low centre of gravity is optimal for comfortable use and a safe driving experience. With the practical aluminium box and the large loading capacity, you can easily replace your van. This is your solution to arrive at the customer, without stress or finding a parking slot.
