

CARLA CARGO

Professional gardening with CARLA Efficient and cost-effective work

Bicycle-based work in gardening and landscaping

Sustainable, flexible and efficient - the CARLA heavy-duty trailer can be used as an ideal means of transportation and work equipment in gardening and landscaping.

The advantages are obvious:

- ✓ **Park close to home and customers** – short distances, less effort
- ✓ **Avoid rush hour traffic and congestion** – reach your destination faster
- ✓ **Minimize ongoing costs** – no high expenses for transportation
- ✓ **Independence from a driver's license, parking spaces, and fuel stations** – full flexibility
- ✓ **Use CARLA as a mobile workstation** – everything at hand on-site
- ✓ **Operate off-road** – access hard-to-reach areas

Future-oriented on the road with the CARLA

-
economical, practical and environmentally friendly!

Your ideal setup:

Alumhurst garden services, Bournemouth UK

Flexible solutions for all requirements

The CARLA adapts easily to the diverse tasks in gardening and landscaping:

High load capacity and load volume: The transport capacity of 200 kg load capacity and up to 2 m³ load volume can be increased even further in combination with a powerful cargo bike.

Safe transportation of your material: Whether green cuttings, planting material, tools or lunch on the go - everything is transported safely with big bags, perennial boxes or the practical Bob Box.

Mobile workstation: In handcart mode, the eCARLA provides support at up to 6 km/h and makes it easy to use in parks, gardens or on footpaths.

"My CARLA allows me to live close to my customers in the city and enhance our green spaces in a cost-effective and sustainable way."

Andreas, Wiedmaier Garten,
Freiburg
