**MADE  
IN  
BLACK  
FOREST**

## **CARLA Bike trailer:**

**The sustainable innovation for beekeepers - versatile, cost-saving, environmentally friendly!**

Efficiency and sustainability are essential for beekeepers. The CARLA bike trailer offers beekeepers an innovative solution that optimizes workflows and minimizes environmental impact.

Here are our top 3 benefits for you:

### **1. Environmental friendliness without compromise**

Say goodbye to cars and minimize the disturbance to your bees. With CARLA, you can easily and quietly go to apiaries that are visible.

### **2. Versatility for your beekeeping**

Whether honey extractor, honeycomb or mobile sales stand - CARLA is your companion in every situation.

### **3. Efficiency and comfort on every kilometer**

With a load capacity of up to 200 kg and the electric eCARLA, you can transport heavy loads with ease, save time and money, and move agilely through the city traffic and country lanes.

# CARLA CARGO

## Your ideal setup:

The **eCARLA** with a classic touring bike offers beekeepers a practical transportation option. Equipped with a safe and powerful battery, it enables **effortless transportation** to apiaries. The special railing is ideal for securing equipment. The flexible base plate makes it easy to convert CARLA into a mobile sales stand.

**"I can no longer imagine  
beekeeping without my  
CARLA."**

Peter, Praterhonig  
in Vienna
