

## Pricelist 2026

### Ordering a (e)CARLA

#### Step 1: Selecting the (e)CARLA model:

We offer various models with different features.

##### Manual CARLAs:

- CARLA mini
- CARLA
- CARLA maxi

##### Electric eCARLAs:

- eCARLA mini
- eCARLA
- eCARLA maxi

**Battery:** All eCARLA models run with a 720 Wh battery from AES and come with a 48V/4.0A charger.

**Sensor set:** In combination with an eCARLA, each towing bike must be equipped with a sensor set consisting of hand throttle, magnetic disk and sensor. A short inquiry form helps us to select the right set.

#### Step 2: base plate / setup

Depending on the model, our trailer can be combined with various base plates and setups. The price list contains numerous options that are available ex works. Many other individual solutions can be realized via our partners.

#### Step 3: hitch

Our standard hitch fits most seat posts with a diameter of 25-35mm. There are also other variants and adapters.
